EXPERIENCE

Team President and CAD Design Lead

Aug 2018 - Jun 2022

Robotics Team 696 Circuit Breakers | La Crescenta, CA

Most senior member; led the development of the team's winning robot in the FIRST FRC 2022 Los Angeles Regional robotics competition.

- Designed nearly the entire robot in Solid Works, managed sponsors, funding, team leadership, and other business activities.
- Significantly boosted team culture through 4 years of participation and effective leadership.

Key Accomplishments:

- Led team to an **undefeated victory (17-0)** at the Los Angeles Regional competition against 37 other teams.
- Robot's performance was statistically ranked **15th worldwide**.
- Featured team on [JPL's home page](#) in an article and received [social media recognition from JPL](#).

Founder and CEO

Jun 2020 - Present

DupedWhipz, LLC | Glendale, CA

- Utilized Facebook and TikTok advertising to drive over **10,000 orders** and **\$200,000 in revenue** within one year.
- Designed and produced OEM keychains while collaborating with overseas inspectors to maintain less than 1% product defectiveness.
- Engineered a robotic arm and programmed internal web-based software to boost fulfillment efficiency by over 200%.
- Built a lasting brand on Instagram earning over 6,000 followers in 4 months.
- Contracted with designers in Sri Lanka to offer a wider variety of personalized keychains to customers.

Design Engineer and Software Engineer Intern

Jun 2022 - Aug 2022

StandardVision, LLC | Glendale, CA

- Developed SVRunner with React JS, Express JS and TypeScript, a web-based software displaying marketing content to **100,000+ viewers daily** around the world.
- Worked with architectural engineers to design 3D models of display installations in Solid Works.
- Used Solid Works to design and fabricate client installation concepts in under 2 weeks.

Vice President of Operations

Jun 2022 - Present

Business Club, Glendale Community College | Glendale, CA

- Responsible for raising and negotiating funds for Business Club through GCC's associated student body.
- Coordinated a startup-workshop event for over 50 high school and college students interested in entrepreneurship.
- Participated in event planning, budgeting, and organizing for club events.
